

Affiliate Marketing WORK AND EARNINGS IN the

Strong Future International

- MY VIEW OF PHILOSOPHY AND FUNCTIONING -

- This e-book is intended for beginners in the Strong Future International (SFI) business as well as those who have become a little lazy and abstained for long periods of time.
- This e-book is intended for the personal use members of the SFI with the aim of understanding the philosophy and functioning of labor and earnings in the SFI.
- In this book I have tried to give my views and my experiences of what I have personally managed find out with working in SFI and Tripleclicks as Team Leader.

If I helped you in work and earnings, will be my pleasure.

- If there are grammatical errors, please forgive me because English is not my native (primary) language...
- If you've bought this book in the other ECA Store, information about the seller please send by e-mail *affiliate.cro@gmail.com*

Comisionar

What SFI ISN'T?

SFI isn't a system based on the grid model, pyramid model or some other type of manipulative model, than it's a multi-level MLM system of motivational type.

If we take the example of a "grid" model where you fill grids on the principle of 4 fields, usually from the system you get \$ 10 to start with, whit which you can fill one of the 4 fields, and for the other 3 you need to pay additional \$ 30. If at a particular time you don't fill in all 4 fields, the fields you previously filled in will be exstinquish and you lose what you invested. If you manage to complete all 4 fields, you start with filling the grid of 4x4 field, which means additional costs for the remaining fields. Usually, you invest what you earnd in for filling remaining fields. Again, if at a particular time you don't fill in all 4 grids, those grids you previously completed will be turned off and you will lose your investement. If you manage to complete all 4 grids, you start with filling the grid of higher level 4X16 ... and so on. Therefore, the system is financed by memebers invests and by bringing the new members who will bring fresh capital. When the flow stops system crashes. Who's earning? Always the ones who are at the top ... And where are we here? Calculate and evaluate by yourself whether it is worth the risk!

If we take the example of the "pyramid", system is based on the principle, pay entry into the system and bring three new members who will pay an entrance fee. One will be used to get a return of invested, and the other two for entered fresh capital to be distributed by the levels "upward". Now these three new members must bring three new members for to be returned your invest and that you may make some money. What if ...? If you do not bring three new members or they do not bring three new members? No fresh capital, there is no earnings ... system crashes.

What SFI IS?

If we take a multilevel system of motivating type, as opposed to the "grid" and "pyramid" which are systems manipulation type, we call him and MLM (multi level marketing) system in which associates themselves choose when and how they will work and earn money. The system isn't based on a "must" ,than "can". Associates don't must anything and don'thave obligations. He who enabled them to enter the system is not slave driver, but he's a person who will for starting the team use a motivation, but most often will motivate the team by example.

What is it that the makes SFI the motivational system?

- Free education, training, training of, lessons, etc...
- Support and assistance of everyone through forums, A2A, blog, etc.
- Don't pay for web domains, you get it free,
- Don't pay for web development, you get it free
- Don't pay for advertising, is free and members are interested in advertising your products (more than 1.5 million potential advertisers)

- Don't worry about advertising and attracting customers, you have more than 1.5 million potential customers from 203 countries around the world.
- You can advertise other people's products, thereby earning
- If you bring other sellers to TripleClicks you have a commission on every product they sell
- In contrast to the "physical" open shops, you don't have overhead costs, rent, etc.
- The advantage compared to "physically" open shop you aren't spatially restricted, sale and delivery you can make on local-level city, region, state, broader region ex Yu countries (Balkan area) or if you want to Internacioanaly to Europe, other continents or the entire world.
- You don't have business hours, shop is open 24 hours, 7 days a week, 365 days a year. Shop works while you sleep.
- You don't have labor costs and you aren't obligation to stay in the store. Shop works while you perform other tasks.

How is the SFI funded if everything is free?

One way of creating capital in SFI is selling at TripleClicks.

Plastic display of creating capital this way:

Imagine an investor to build a building than a hundred floors and on each floor make hundreds of commercial spaces. Then the business premises rented for the purpose of profit.

For the purpose of bringing sellers in business premises there are more methods and ways, and one of them is that **promoters** help investor, for what they get percentage for sellers of what they earn by every leased area.

Investor offer seller completely free rental space where sellers don't pay the rental, space equipment, labor, cleaning, utilities, electricity, water, heating, maintenance, telephone, internet, advertising, etc. .. **ALL IS COMPLETELY FREE**, just come in, enter his goods and waiting for someone to buy, whereby even sellers don't need to be in the store, because he will be informed about every purchase as soon as possible, because the store is open 24 hours a day, 7 days a week, 365 days a year regardless of holidays, working and non-working days, regardless of where the seller is and what he's doing ...

Investor from each sold item earns at least **15%**. Even this percentage **does not pay seller**, it's already included in the price of the product, during the formation of the selling prices.

Take for example the sale of an items for 100 (\$, £, ¥, € ... irrelevant currency). Seller during the formation of prices calculat percentage for investor. The retail value of item is now 115, whereby 100 gets seller, and 15 investor, of course, if the item has been sold. If item is not sold the earnings for seller is 0, and the investor also gets 0. So simple, when and if the seller sells some item investor receives a share.

Whoever brought seller, gets of the investor's profits (15%) his percentage prize for brought seller for the amount of 40% of 15, in this case 6 (\$, \$, \$, \$... irrelevant currency).

Seller may, when forming the selling prices of items determine and higher percentage of earnings for investors of 15%, while getting better conditions in the sale. Think of it like this if this is physical model, a seller in price incalculate 15%, gain the space on the upper floors, further away from the entrance to the object and the number of required MRP or TCreditsa needed for cashless payment is higher. As percentage is higher itreduces the number of required MRP or TCreditsa needed for cashless payment items. If the seller in the price of items determine, say for example, 40% he gets spaces on the lower floors, or even on the ground floor at the entrance to the object, and reduces the number of required MRP or TCreditsa needed for cashless payment items, gets more VP to purchase such product etc... So seller defines the selling price, terms of earnings, profit-sharing and its position, wherein seller ALWAYS gets REALLY VALUE of his items, regardless of the percentage the profits of investors.

Let's look at just a short couple of statistics information and what these numbers tells us:

- More than 1.8 million members which tells us about the number of potential customers as well as the number of free potential promoters of products
- More than 200 countries from which are members which tells us the size of the market for product placement
- More than 95,000 Products and services which tells us about the diversity of supply that can be offered locally, regionally, globally, internationally ...
- More than 3,000 Dealers / Sellers which tells us that there is enough space and room for all those who want to have something to sell and want to sells.

For the purpose of to bringing customers into the business premises there are several methods and modes (ads, banners, e-mail, promotional cards, website, blog, etc. ..), and one of them again is to use *promoters* (more than 1.8 million potential) which will receive a percentage the profits of sold product. Earnings are paid of (promotors as) percentages(earnings) of sold product which gets investor.

It is important to mention(note) that each brought seller and/or customer while he is in the system and sells, **the promoter** gets his earnings for each sold, or purchased item, no matter when, where, what and from whom he buys.

You make money even when (and when to the) on Tripleclicks **YOUR** PSA (45%) and CSA (15%) are buying.

ADVANTAGES OF SALES ON TripleClicks:

- 1 You do not pay a web domain, you get absolutely free,
- 2 You do not pay for web development, you get completely free
- 3 You do not pay for advertising, it's free and members have the benefit of advertising your products (more than 1,800,000 potential advertisers)
- 4 You do not need to worry about advertising and bringing customers, here you have more than 1,800,000 potential buyers from 203 countries around the world.
- 5 You can advertise other people's products and thereby earn
- 6 If you bring in other vendors in TripleClicks, you have a commission on every product that they sell
- 7 In contrast to "physically" open trade you haven't overheads, rental costs, etc.

- 8 advantage over the "physical" open shop you aren't spatially restricted, sale and delivery can be performed locally at the level of the city, the region, the state or if you want to internationally in Europe, other continents or the whole world.
- 9 You don't have work hours, because your store is open 24 hours, 7 days a week, 365 days a year. Trade works while you sleep.
- 10 You don't have labor costs and you aren't obligated to stay in the store. Shop works even while you perform other tasks.

Other way to create capital in SFI are auctions on Tripleclicks.

Every day at Tripleclicks auctions are organized.

What of it has SFI respectively TripleClicks?

We will analyze it on a single product, eg

Brother QL-570 Professional Label Printer

Retails at: \$169.00

Winning bid:

Auction ended: 2013-03-18 19:13:31 CST

Auction ID: 14268

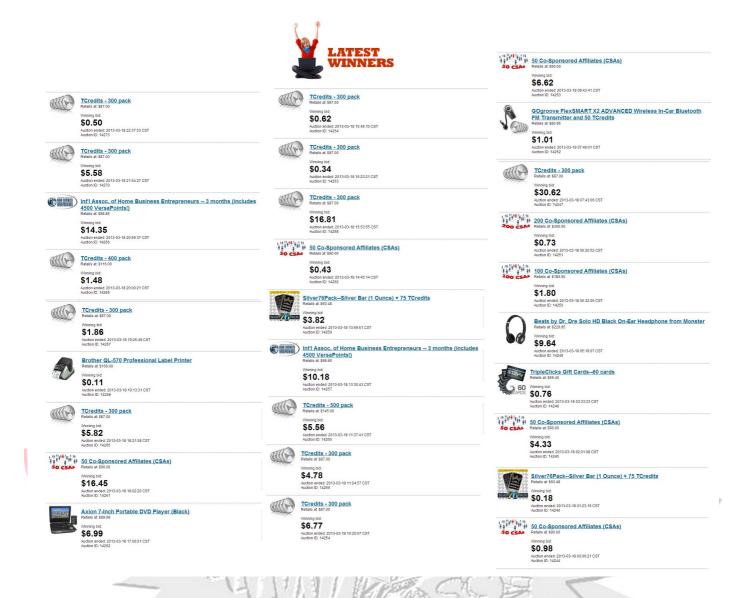

Winner Auctions won the Printer actual value of \$169 for only \$0.11 (or 11 ¢) and achieved a saving of 99.4%

If we know the philosophy of the auction, respectively that for each bid prices at auction (BID NOW!) Is required 1 TCredits.

The average value of a single TCreditsa is \$1.89. Given that TCredits can buy at a better price when taken in packages (50TC=\$19.90, 100TC=\$29, 200TC = \$58), let's take an average value of **\$0.5** purely for ease of calculation.

It means: for this Printer SFI has earned of the consumed 11click X \$0.5 = \$5.5 at auction.

We will analyze now a one day, ie 18th March 2013th.

Total Value of Auctions is 15,912 Click

So: 18th March 2013th the SFI has earned 15,912 click X \$0.5 = \$7,956 at auctions.

Now multiply that with the number of days in a month, 31x8.000 = approx \$250,000

Means the that in this way SFI earns an average of about 250,000 green banknotes ... !!!

The third way to creating capital in SFI's is saling of your own products and services, from loans for bidding at auctions, promotional materials, banners, flyers, business cards, books, brochures, advertising material, etc. ..

The overall earnings in one month, inclusive on the last day of the month, SFI shared with its members in relation to 60:40, and accrued earnings are paid by the tenth day of the month. If it is a weekend or holiday pay is the next working day.

This money, in the amount 40% be will placed in the monthly TripleClicks Executive Pool, from which each active affiliate participates in the division relatively achived own VP (Versa Points) in that month.

Team leaders participate with the sum of its VP and VP of own associates at the position EA2 and more (BTL, STL, GTL, PTL).

The value of one VP in money depends on the profits made from sales in one month.

Average monthly earnings could range within \$3-4 million

WHERE AM I HERE AND WHAT IS MY ROLE IN ALL THIS?

In the SFI, personally one can earn on more of one ways

1st - Team Leader

Tim is the base of everything.

The goal of every Affiliate should be to build a team PSA (Personal Sponsor Affiliate) and aspiration to become a Team Leader.

https://www.sfimg.com/Reference/CompPlan

Individually, each member can exist for some time, a month or several months, but it is short-term. Can achieve extraordinary results. Can reach to the highest levels of PTL, but can it keep and justify such a result? As individual? Hardly! Maybe a month and maybe more, but the long term ...? On the longer term, the only way of existence in this types of programs is teamwork.

Everyone sometimes happens decrease concentration, motivation, time, interest, money ... As an individual, will be difficult to overcome this situation. But if you have a team behind you, it's a different story. Team is the one that will pick it up, motivate and run as, because as part of the team we all are the driving force and one of the links in the chain. And a chain is strong how much the weakest link is. That is why this is motivating MLM, and not manipulating MLM.

Building a team is not an easy job. Often in a team you can have dozens, hundreds, thousands of people but do you have a "man". By this I mean how much is quality individuals in that heap? Now that depends on you and how and in what way you access the team ... construction, education, maintenance, evolution ... what kind of leader are you and how much you dedicated to the work of the team, how professional you are.

But, you have to start from somewhere. Typically, it's your narrowest environment, *friends, relatives, acquaintances, neighbors, acquaintances from school, with college, with work, from the coffee shop, with recreation, dentist, doctor, butcher, carpenter, locksmith* ... it's a big list of potential members of your team.

relatives:

parents, parents of my husband or my wife, son, daughter, brothers and sisters, uncle, aunt, wife's brother, brother in law, nephew, cousin ...

friends and acquaintances:

classmates, colleagues from his student days, teachers, professors, acquaintances and friends from the army, friends with playing cards, bowling, etc., friends and acquaintances with summer and winter holidays, vacation, skiing, etc...

acquaintances spouse:

members of organizations and associations to which it belongs, colleagues, friends and acquaintances from school and the study, friends from the army...

acquaintances of my children:

their friends from kindergarten, school, study, their teachers, professors ...

acquaintances from my current and former neighbors...

colleagues and acquaintances from my current job:

Boss, Head of Department where I work, manager, shift leader, associates, technicians, engineers, clerks, secretary...

persons who I meet in humanitarian organizations, churches, organizations to which I belong...

persons who I meetin leisure:

music school, orchestra, photography club, choir, folk society, friends and acquaintances with whom I playing tennis, chess, football, volleyball, table tennis, beach games, I go on run, on sailing, on bowling ...

persons who I meet every day:

trader, a butcher, a baker, a seller at the supermarket, an educator in kindergarten, florist, persons of which I buy fish, vegetables, dairy products, postman, seller newsagent, hairdresser, barber, mechanic, workers at a gas station ...

people I meet, because I have an apartment or house:

bricklayer, plumber, ceramist, house painter, installer, electrician, carpenter, gardener, architect, designer ...

persons who I sometimes encounter:

doctor, dentist, lawyer, notary, real estate broker, pharmacist, waiter, bank clerk, the clerk at the post office ...

How to know who could do this job? If you don't make offer to them, you will never know. Don't do make the selection or elimination, because you never know in which shells is hiden a real pearl.

You can contact them in person, e-mail, phone, mail, internet ... but you have to give them your link, to perform REGISTRATION EXACTLY ON YOU and how to ensure they are MEMBERS YOUR TEAM . Link is located to the web page SFI and TripleCliksa.

SFI "Marketing-> Sponzoring"

1st Tell your friends and family to sign up as **SFI affiliates** at:

http://www.sfi4.com/XXXXXXX/FIRST ili

http://www.sfi4.com/XXXXXXX/REAL2 ili

http://www.sfi1.biz/XXXXXXX

SFI "Marketing-> Sales"

2. Tell your friends and family to check out **TripleClicks** at:

http://www.tripleclicks.com/XXXXXXXX

where is XXXXXXXX You ID SFI

Team Leader is not hard to become, but the actual Team Leader can only be by building THEIR OWN TEAM OF PSA, who always remain yours and in case you don't verify your status.

It is important to remember and always keep in mind that here as a independently players you don't make some impressive results and earnings. Only as a team player, you have a chance, because **ONLY THE SKY IS THE LIMIT!**

2nd - SALE ON TRIPLECLICKS

We aren't all born to be leaders. There are various restrictions, brakes, inner fear, discomfort, fear of failure, etc., so building a team is not an easy task.

But for that there is a solution. Open your own shop on Tripleclicks and promote your products on the Internet, and offer to prospective buyers when buying your products that they engage in the SFI program as your members.

Sales can be done in 2 ways.

The first mode is so called "garage sale", which means we sell as members of the SFI or Tripleclicks our personal things that for whatever reason we are no longer need, including electronic publications such as e-books, etc.

For this way of selling you need to fill out the form, you must form the prices of who increase min. 15% commission for TripleClicks, give requirement and wait for approval from the TC a few days and be notified by e-mail. For this to you TripleClicks billing 1 TCredits. *Approval may be denied*, and then you is 1 TCredits returns.

https://www.tripleclicks.com/ECA/ECAItemLister.php

The another mode is to register and open their own "store" on Tripleclicks.

Log in to <u>www.tripleclicks.com</u> with SFI ID and password, or simply select the option from the SFI TripleClicks.

Then go HERE:

http://www.tripleclicks.com/ECA/ECAApplication.php

When registering, first you fill in form about its trade. Must be specified store name, which does not mean that there must be a physical store, neither will TripleClicks to check it, but it must be noted because it will be linked to your SFI ID for the link to the promotion.

After that, in further filling out the form, the data concerning the product or products you want to sell in the store are added. You will be asked for tosend an e-mail or uploaded directly to page scanned document confirming your the identity (passport, identity card, or other photo identification ...) and scanned the last payment telephone or cell phone subscription, or if you have a standing order to confirm the address you specify as the address of your store. It necessary to determine if you are an adult and you do not have a fake profile.

Wait for a few days and do not be disappointed if receiving refusals, because there is a possibility that there is already a sufficient number of stores that offer Products of which you want to sell.

You wait again a few days and repeat register, change the store name and try again. This game of "cat and mouse" can take a couple of times, but be persistent in your efforts and repetition, until you do not approve. When you finally approved, after a few days the answer arrives at your e-mail that you provided at registration and fill in additional information - what in the case when product returns, in the event of customer dissatisfaction, breakage in delivery, etc. So again, wait a few days and when finally certificate arrives you can start with filling in your store. Every product that you put there waiting a couple of days for verification of Tripleclicks until finally will be approved and placed on sale.

Prices of products you form yourself, wherein you choose for value of the product, shipping charges, choice of destination delivery, or if you want to sell locally or Internation, choose the currency in which the product will be paid, etc. In the selection of sale and delivery you can yourself limited locally on your city, state, region or if you want to Internacioanalno to Europe, other continents or the entire world. Of course, no matter that you have to limit the local sale of all (more than ...) 1.8 million members Tripleclicks will see your product and will

be available to them information about you and your product (of course only the data that you specified in the application form = FREE ADVERTISING!).

When you sell a product via TripleClicks "shop" you're earning. Everything about it is explained in the introduction (**One way of creating capital in SFI is selling at Tripleclicks.**)

WHAT YOU CAN SELL:

What can I sell at TripleClicks?

Take a look around your home, garage, shed, and storage unit—you might be surprised at all the treasures, tools, and other items you'll find that you no longer use or need—items you can sell to others, while clearing up your space a bit and putting a few bucks in your own wallet!

- Old jewelry
- CDs, DVDs, records
- Video consoles and games
- Collectables (coins, figurines, stamp collections, etc.)
- Sports gear you're no longer using (golf clubs, knee pads, aluminum bats, etc.)

- Stocks and Other Securities
- Stolen Property and Property with Removed Serial Numbers
- Sunglasses with bluetooth/MP3/recording capabilities
- Teacher's Edition Textbooks
- Ubuntu Linux Toolbox
- Zumba branded products

http://www.tripleclicks.com/ECA/Guidelines.php

3rd - Bringing sellers and buyers (ECA)

If one isn't born for a leader and has no affinity for the construction team, and have nothing to sell, and so is not able to open their own shop, you can earn by allowing others to open up trade in Tripleclicks or to bring in customers who want to buy cheap, who love challenges auctions, etc. ..

Whom offer to open a store on Tripleclicks?

Simply put, take a little walk through the menus and see what is usually offered and sold, which are the profiles of products and sellers.

If you want and what you have and you can sell

Apparer Art & Crafts - Art Supplies,Model Building, Needlecrafts & Yarn,Pottery,Glass,Scrapbooking,Fabric. Books - Audio Books,Children's Books,Fiction,Non-Fiction,Textbooks & Education Computers Digital Down

and much, much more

Then you walk through your place, surf the Internet and offer

https://www.sfimg.com/Training/ECAStrategies

Health & Welln Home & Garde elry azine Subscriptio

https://www.sfimg.com/Resources/ECAMarketingAids

https://www.sfimg.com/Resources/Marketing/StandardReferralMethods

https://www.sfimg.com/Resources/Marketing/StandardSponsoringMethods

When a person registers to Tripleclicks, regardless whether vendor and / or purchaser, as long as is in the system and sells, respectively buys, you get your earnings for each subject no matter whether its sold or respectively bought, no matter when, where, what and code whom buys. Direct earnings is 45% of those 15% of the accrued value of items being sold.

Example of calculating earnings is explained in the introduction (One way of creating capital in SFI is selling at Tripleclicks.)

4th - Promoter

If none of the previous methods of earnings is not according to the will Affiliate, they can earn by promoting products with Tripleclicks and earn from products sold which has promoted...

The pallet of products is wide because disposes to more than 70,000 products.

Link for promotion you can find for each specific product when you open the option "SFI AFFILIATES"

http://www.tripleclicks.com/XXXXXXXX/detail.php?item=YYYYYY

where is XXXXXXXX you ID SFI where is YYYYYY Item No. Item

Link they can promote on their blog, website, on their pages social networks, groups for advertising on social networks, send e-mail friends and acquaintances at the same time taking care not to enter in the Spam zone, etc...

You can promote and using the option "Share It!" for concrete products.

Direct earnings it is 45% of the CV (Commission Volume) which is listed for each specific product.

SOMETHING ABOUT THE EARNINGS

26th March 2013th there were 4 months of my registration the SFI and the first written version of the document.

Today, when I write a third version of this document, there are ended 10 months of my work at the SFI.

Tells me one of my PSA after his three months in SFI:

"This, man, is nothing's wrong ... So, I'm three months typing by those red tabs, included 4 new PSA and you have no more than 80-95 cents a month ..."

Well, now how do I tell him how this makes money when the me do not allow the SFI, and if I write about this, the SFI will ban me and then the fat is in the fire.

Where have I been - anywhere

What I did - nothing

OK, I sit down and think.

Well, I will not write how many I earn from purchasing own PSA

- Direct Commissions (DC) - \$X X CV this month

Well, I will not write how many I earn from purchasing own CSA

- Co-Sponsor Commissions (CSC) - \$X X CV this month

Well, I will not write how many I earn from my VP and the VP of own PSA and CSA EA2 and TL

-TripleClicks Executive Pool	- XX personal VP this month
(EP)	- XX eligible VP for VP Match
	- XX ineligible matching VP (Rank)
	- XX ineligible matching VP (EA2)

This is my direct earnings. I will not risk be I thrown out of SFI if write how much I earning a month, but I will say that me more than enough to maintain the current status of the **Bronze**Team Leader and purchase 2 packages of 125 TCredits, and remains still something for buy something on the Tripleclicks or for pay the prize which I won at Auction.

What I wanted to say in this part of the "Something of earnings" is what INDIRECTLY we earn, and we not they seen it on the payroll, which to will us the SFI tenth of the month submit to on PayPal or cards (or checks).

I do not know if people it the seen, because if they seen, then my associate and member of the team would not have reacted the way.

Here about what it's all. I will show by on its example of the SFI in the last month.

What am I it in the last month "worked", and "not paid me":

Date	Option	TC	MRP	VP	Single price	Package	\$
01.09.2013.	T-Time Winner	2			1,89		3,78
02.09.2013.	T-Time Winner	2			1,89		3,78
07.09.2013.	T-Time Winner	2			1,89		3,78
09.09.2013.	T-Time Winner	2			1,89		3,78
09.09.2013.	I won a prize from E365!		100				
11.09.2013.	12 TCredits earned (for BTL stastus)	12				1	7,08
13.09.2013.	PTP Winners	25				1	14,75

13.09.2013.	Winners Auction	5	50			1	80,99
13.09.2013.	67 CSAs awarded on August					1	120,60
13.09.2013.	T-Time Winner		2		1,89		3,78
14.09.2013.	T-Time Winner		2		1,89		3,78
15.09.2013.	T-Time Winner		2		1,89		3,78
16.09.2013.	T-Time Winner		2		1,89		3,78
20.09.2013.	Wave3		5	50	1,89	1	9,45
16.09.2013.	T-Time Winner		2		1,89		3,78
24.09.2013.	PTP Winners	1	00				29,00
27.09.2013.	T-Time Winner		2		1,89		3,78
29.09.2013.	T-Time Winner		2		1,89		3,78
13.09.2013.	PTP Winners	2	25			1	14,75
	TOTAL	2	14	150			303,45

Let's take these 214 Tcredista.

Of the total number I'm dissipate 14 TCredits on the PTP Winer (guessing the final auction price) and was lucky to the I earned 125 TCredits.

The total value TCredits is \$ 303.45

If we now refuse 14 TCredits spent on the PTP, and of the remaining 200 TCredits "we play" the Auction X2, we obtain:

- 200 VP in career and
- 2000 MRP with which we can buy a new 15 TCredits (15x126 = 1890) and remain us 110 MRP

The value of these 15 TCredits is \$ 28.30 (If you buy 15 individual Tcredits) If now with them "we play" the Auction X2, we obtain:

- 15 VP in career and 150 MRP

Now, if we add up the rest of 110 MRP and this new 150 MRP we will dispose a total of 260 MRP with which we can buy new 2 TCredits and shall remain unspent 8 MRP.

The value of these 2 TCredits is \$ 3,78 (If you buy 2 individual Tcredits)

If now with them "we play" the Auction X2, we obtain:

- 2 VP in career and
- 20 MRP shall remain unspent

If we add up the rest of 8 MRP and this new 20 MRP we will dispose a total of 26 MRP for next month.

Let's see how it looks in the table:

	TCredits	MRP	VP	\$
200 TCredits spent at Auctions x2		2000	200	
1890 MRP spent for buy TCredits	15			28,30
15 TCredits spent at Auctions x2		150	15	11
260 MRP = 252 spent for buy TCredits	2			3,78
2 TCredits spent at Auctions x2	(20	2	1/
TOTAL	17	2170	217	32,08

Let's now to add up both tables and see what am I "earned", and didn't paid to me:

		TCredits	MRP	VP	\$
TOTAL	Table 1	214	150		303,45
TOTAL	Table 2	17	2170	217	32,08
ALL TO	TAL	231	2320	217	335,53

It means, I HAVE INVESTED **\$0.00**, and my INDIRECT (IMPLIED) EARN is **\$335.53**

Even if I DIRECTLY earned \$ 0.80 to 0.95 (and I'm not) how says my associate, whether it is worth tapping (typing, or whatever ...) red "button" (keys, buttons, options, or how whatever ...) in order to daily "done" the 11 VP.

To me it is worth.

And for You ...?

Consider before you think that this the job is not worth it, or before you want to the give up.

Not all of what at first glance. Sometimes are the right things "little" hidden, only need to be "see."

INSTEAD OF CONCLUSION

In this text Itried to give my own view of what I have understoodin of SFI and Tripleclicks in this 4 mounths.

I think that (would be) such a text could used efficiently for motivating young members who are just starting and do not know from where to start, as those who were been longer time in the system but are arrived at some stage till saturation, fall motivation, etc...

Of course this text can not be replace lessons on SFI, but could serve as supplement (at least I hope ...)

Finally, when it's all simply views, provided that alone understood and largely hit the essence of the functioning of the SFI systems, I wonder how much are my chances that from this business I can make safe , long-term source of additional income?

I think that for me, just like to everyone else, the doors are tottaly open and everybody for yourself can decide how much you will benefit than that, whether as a Team Leader, whether as a seller or as a supplier of sellers and buyers, whether as a promoter of products with Tripleclicks.

ONLY THE SKY IS THE LIMIT!
