What as customs duties and tax (or value added tax) depends from country to country, so to you or the buyer can to search information about that on the Internet, or call the Customs and the Ministry of Finance.

I know for Croatia.

I'm exempt from customs duty to the value of goods less than \$ 100, and the tax (value added tax) less than \$ 20, which means when you win the auction and pay the subject less than \$ 20 I do not pay no customs or tax, but if I pay \$ 60 item, I do not pay customs duty, but I pay value added tax on the difference  $60 - 20 = \$ 40$  in value of 25% respectively \$ 10.

Thus, in Croatia, and I do not know elsewhere.

## FACEBOOK AND ADVERTISING

In connection with Facebook and advertising, you will have a problems with **the SFI LINKS**.

On the Facebook is enough have someone member who will your announcement marked the Spam and "You are in trouble.". Facebook will immediately block the links and you're marked how a Spam.

HOW ?

Quite simply ...

You putting the publication on your Facebook profile.

This announcement immediately "appears" on the page of your Facebook "friends".

Enough is to some of them squeezed little "x" in addition to the publication and says did not want to see this the publication on his page. Program Facebook asks for a reason and offer a four replies :

" More does not follow this announcement

-----

I don't want to see this

Hide all from ... (ime određenog korisnika)

Hide all from ...! "

Having he said that does not want to see or follow the publication obtain the following selection:

**This post has been removed from your News. Cancel**

Top of Form

**Why don't you want to see this?**

It's annoying or not interesting

I think it shouldn't be on Facebook

It's spam

Bottom of Form

And when he mark " **It's spam**", noone more of those who follow the publication, matter how many times tried to click on your link no will be on connected on your page.

LINK IS MARKED WITH A SPAM OR BAN

Some a bad people are unlimited sends the SFI links, so the SFI links are MARKED WITH A SPAM on Facebook.

That's why your publish do not go on this way.

So, it would be good to create link shortcuts on the Google program for shortening links:

<http://www.goo.gl>

But if someone that link declares with a SPAM again all over again.

**ANOTHER WAY** is to works an image ad in one of the program (I use Corel, PaintSopPro etc.) and in the image I interject a link. Then it can not be declare wiht a SPAM ...

I use both forms.

Here's how I do it (especially on Facebook)

I write a text comment in the status:

**" 07th August .2016. twenty-eighth time I'm confirmed Silver Team Leader status in Strong Future Internatioanl Company, best Internet program for online work and earnings.**

**If you're interested in what do I do and how I earn, write the link with the picture in the Address bar of your Browser and you'll get a reply or click on the link <http://goo.gl/kwQMNp> "**

After that I join the picture :

**I'm a SILVER TEAM LEADER**
